

Commercial Vehicle Self Coating

MetaLine® Series 700 – Self-processing coatings with face-to-face teaching

Commercial vehicle coatings in a different way:
Self processing. WITHOUT investment costs,
WITHOUT paint booth, WITHOUT vehicle transport,
WITHOUT waiting times but WITH supervision and
more than 60 years of coating experience “Made in
Germany”!

MetaLine® coatings are individually adaptable to
the vehicle in different degrees of hardness, static
friction, textures, colors and terrazzo effects ... in a
well proven industrial quality!

Applications

- food transporters (EU/FDA approval)
- sewer inspection vehicles
- service vehicles
- ambulance & rescue cars

Reference

- food approval EU 1935/2004 and pharmaceutical transports according to FDA 177.1680 (21)
- monochrome, multicolor or with attractive terrazzo look
- more resistant and durable than roller applied or sprinkled coatings
