

Workpiece Carriers

MetaLine® Series 500 – Coatings for scratch protection in workpiece handling

Sprayable elastomeric coatings for safeguarding highly sensitive surfaces and for scratch and marking protection. Fulfills highest protection demands during the assembly of painted, translucent or chromed automotive parts.

Applications

- assembly supports
- assembly nests
- transfer systemes
- sockets / prisms
- workpiece carrier

Reference

- textured (velvet-like), anti-static properties for the reduction of the contact area
- free from any paint wetting impairment substances
- approved by all European & US vehicle manufacturers
