

Check Valves

MetaLine® Series 700 – Coatings for resource-conserving structural preservation

FLSmidth's Technequip™ "Tech Taylor™" valves are an essential element in the material handling process ensuring standby pumps can work isolated or simultaneously and discharge effectively and efficiently ...

When the elastomeric inside liner is worn out, professional repair technology can bring back life! MetaLine® 785 has proven to give longer service compared to OEM linings!

Applications

- valve body
- valve flanges
