

General Mining

MetaLine® Series 700 – **Wear and corrosion protection in the extraction of resources**

Completely seamless surface protection with rubberlike properties but without the need for hot-vulcanization or autoclave equipment. Unlike rubber an entirely tension-free installation with no disbonding tendency. Can return back into service already within about 24 hours.

Applications

- agitators
- magnetic separators
- process tanks
- storage containers

Reference

- more durable than conventional rubber linings or plastic sheet linings
- non-toxic in processing, solidification or later disposal
- theoretical and practical support by MetaLine® trainers on site can be ordered
