

Fans / Blowers

MetaLine® Series 700 – Non-stick surfaces in extraction and ventilation systems

The remarkably low density of only 1,05 kg/m² per mm film thickness (0.215 lbs/ft²/40 mil) keep equipment weight low. Impact and erosion-resistant. Electrically non-conducting (must not be used in "EX"-areas). Suitable up to 70 m/s (230 ft/s) of centrifugal speed. Up to 5 dB(A) sound deadening in terms of structural borne noise.

Applications

- fan blades / housings
- dust extraction systems or blowers
- pneumatic conveyors
- propellers / impellers / rotors

Reference

- professionally smooth to improve the aerodynamics
- can be applied in 2 colors on top of each other as an optical wear indicator
- adheres very well to light metals and special alloys
